

ResultsVault

football

ResultsVault is the complete on-line administration and results management service for football clubs and associations. The ResultsVault Football web service is based on the hugely popular ResultsVault cricket service which has operated since 1999 which has revolutionised the way cricket is managed at the grassroots level. Players and supporters have found ResultsVault has taken the availability, timeliness, and depth of results and statistics to a new level and streamlined administrative processes for clubs and associations.

ResultsVault Football contains many hundreds of features including:

- Detailed match results and statistics entry
- Range of statistical reports covering goal scoring, goal assists, red/yellow cards, matches played, substitutions- all available across multiple seasons and divisions
- Automatic ladder calculation
- Individual player performance reports – season and career
- Club fantasy league (coming soon)
- Player and contact list management and a wide range of email and SMS communication tools
- Unlimited number of "logins" to share the administrative load
- Automatic fixture generation
- Full player registration, match locking, reporting and auditing functionality for association users
- Referee allocation and performance management
- Player registrations
- Media reports

Plus, many more, please visit football.resultsvault.com to view a complete list of features.

Ease of use and support

The majority of sporting organisations have now realised the importance of having an online presence and the use of the Internet for more efficient communication and operation. Most importantly however is that these systems must be easy to use and require no technical experience to operate. ResultsVault has been built with ease of use in mind so that anyone from your club or association can get up and running quickly and easily. If help is required we offer many areas of support including online context sensitive help, a comprehensive searchable FAQ database, help documents to get you started and responsive support via email or telephone.

Consider the wide range of benefits:

- ResultsVault is 100% accessible over the Internet using a web browser, no need to install extra software
- Improved communications with your players, supporters and sponsors
- Save your valuable time. The huge range of features developed specifically for grass roots sporting organisations means less paper work, fewer phone calls to chase people up and no more double handling of information. Clubs and associations using ResultsVault report increased volunteer satisfaction and retention
- Cost savings. Performing tasks online will lead to reduced costs in printing, postage and phone calls
- Additional revenue opportunities through running your own Fantasy League or sourcing advertising for your website
- Remove the dependence on that "one person" to do the work- ResultsVault supports multiple users from any number of locations
- Match results and statistics instantly available from anywhere in the world via the Internet
- Increased availability of information will encourage greater participation and foster a greater spirit within your club or association.

ResultsVault works closely with grass roots organisations and people who actually play the sport when designing it's systems to gain an intimate understanding of the types of information and supporting administration systems that add value to sporting clubs and associations.

ResultsVault can save your club and association time and money as well as making it easier to promote your club and attract more players, supporters and sponsors.

Need a website for your Club or Association?

SportzVault is a powerful and user friendly website solution for your club or association that needs no specialist web programming experience and is as easy to use as editing a document. A SportzVault website is fully customisable to suit your needs and includes the ability to create news items, upcoming events, photo galleries, file downloads and much more. Most importantly it seamlessly integrates with ResultsVault so that all of your results and statistics appear on your website. See www.sportzvault.com for more details.

Match Result Display

How to make ResultsVault pay for itself

ResultsVault is not only a much more efficient way to run your club or association, saving countless hours in administration, it can also reduce costs in:

- Printing/Photocopying – Information is available online at all times so less need to print paper copies of ladders, fixtures and statistics.
- Postage/Fax – No more mailing/faxing in match reports and results.
- Telephone – Reduced costs in chasing people up or phoning in scores. Using bulk SMS will also save making phone calls for those urgent messages.

Using ResultsVault can also generate additional revenue, including:

- Fantasy League – Players pick virtual teams from members of their own club who earn or lose points based on individual or team statistics for a match. Clubs can charge an entry fee as a fundraising exercise.
- Website Advertising – More information online will mean more traffic to your website which in turn makes your site more attractive to advertisers. A SportzVault website option (see previous information box for details) has built in advertising management features to enable easy creation and placement of ads on your site.

A complete association administration system

ResultsVault is a huge time saver when used across an entire association as most of the administrative processes that are normally required are dramatically streamlined. Association processes available through ResultsVault include:

- Match result management and confirmation
- Ladder calculation
- Player registration
- Player clearance, permits and transfers
- Referee management and assessments
- Venue reports and assessments
- Player voting
- Club management and communication

With ResultsVault an association administrators role becomes more of a “monitor” of incoming information rather than that of a collector and collator of information.
